FLORIAN WACKER

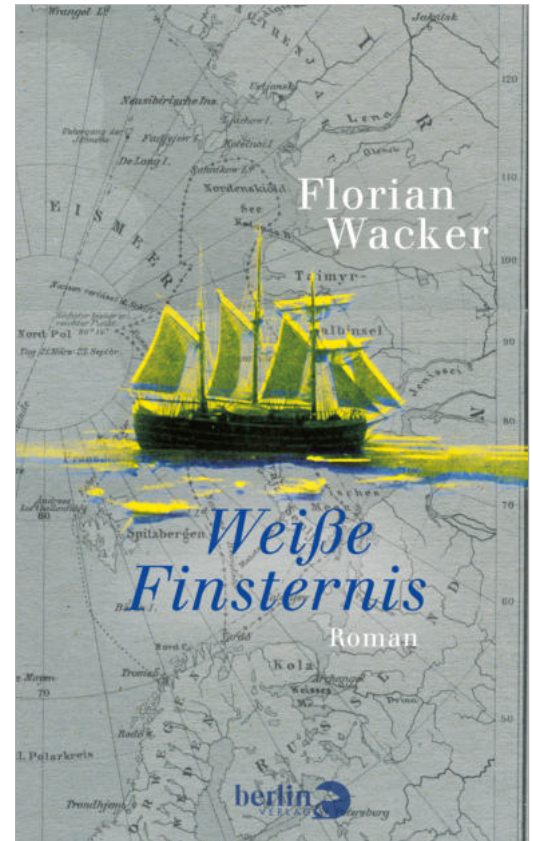

White Darkness

"We used to be one, but now we are three ..."

ABOUT THE BOOK

Two friends on a mission in an infinite icescape, depending on each other for their lives and sent by Roald Amundsen to report on the progress of the *Maud*. But what really connects them is their rivalry for the affections of Liv, the woman they both love, and whom they believe to be waiting for them in Tromsø with her two children. A hundred years on from Amundsen's famous polar expedition, **White Darkness** grippingly interweaves the true story of the disappearance of the two seamen Peter Tessem and Paul Knutsen with an ill-fated love triangle and the story of a woman ahead of her time.

- An adventure story built around Amundsen's North Pole expedition (1919) and a doomed three-way love affair
- Awarded the Robert Gernhardt Prize for literary work in progress

MAREIKE KRÜGEL

Sister

Mareike Krügel's selfless, strong-willed heroine is forced to reinvent herself in the wake of her sister's accident

ABOUT THE BOOK

Lulia slumps on to the sofa. She hasn't spent much time sitting there; nowhere near enough, in fact. Where has she been lately, and why didn't she meet up with Lone more often? These are questions she needs to answer on her own. Lone is in a coma following an accident, and Lulia is forced to take on some of her duties as a midwife. She starts to reflect on her family and the men in her life, on their shared experiences, and most of all on the years she's spent living as the wife of a pastor and the employee of a bank. **Sister** is a poignant, compassionate portrait of two different lives and of a woman finding her way – haltingly at first, but then with a growing sense of purpose.

- Her novel **Look At Me** has been published in seven languages
- Two sisters, two lives. An accident poses the crucial question: which is the right way to live?
- For readers of Daniela Krien and Mariana Leky

TIMON KARL KALEYTA

The Story of a Simple Man

Scenes from the Life of a Good-for-Nothing

ABOUT THE BOOK

Life has dealt our narrator a lucky hand. Despite his humble beginnings, he senses from an early age that he is destined for greatness. It takes nothing less than the defeat of Helmut Kohl in the 1998 election to dent his confidence. Will it all be downhill from now on? After his graduation, our hero sets out, in a spirit of boundless euphoria coupled with supreme anxiety, on a journey straight to the top. He comes within a hair's breadth of hitting the big time with his rock band, very nearly embarks on a meteoric academic career and is almost lucky in love, hovering throughout on the brink of disaster. If we are to believe him, however – and heaven forbid that we shouldn't – it all comes right in the end. Scintillating, sparkling and delightfully told – even if all that glitters isn't gold!

- A picaresque novel for our times – laugh-out-loud funny and tear-jerkingly sad
- The story of a man who stakes everything on the big chance
- "Timon Karl Kaleyta is such an outstanding songwriter - does he really have to write a book as well? I say: YES!" - *Benjamin von Stuckrad-Barre*

ECKHART NICKEL

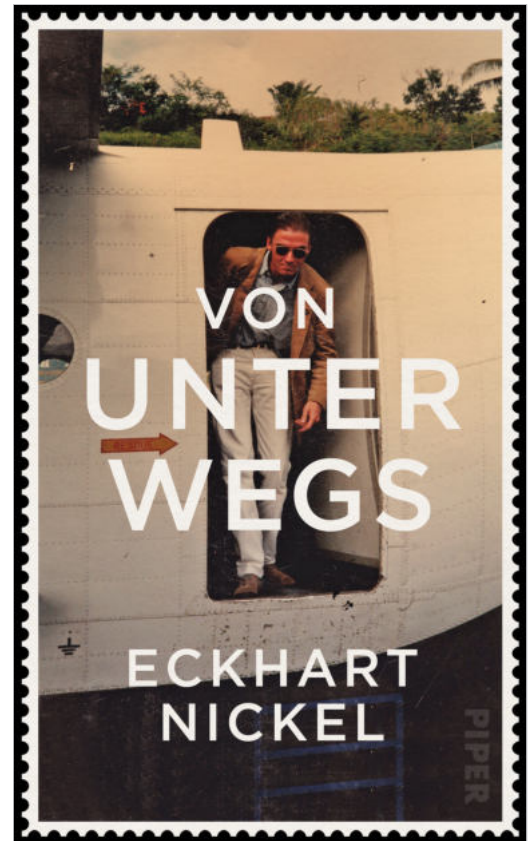

Travelogues from Abroad

Wanderlust forever

ABOUT THE BOOK

With these travel stories, the world can be discovered anew. No detail, no matter how small, escapes the detective's eye of the author; a mind shaped by liberal education, always seeking to map the bigger picture. Eckhart Nickel combines stylistic subtlety with the understatement of a gentleman traveller who allows the places he travels and people he encounters to speak for themselves. His stories provide the perfect travel substitute for our times: as absurd, comical and exciting as the real thing.

- For Nickel, an exceptional writer of 30 years' standing, travel is not just being on the road: „Travel is a ceaseless search for the only moment we yearn for even more than our next departure: that of love.“
- His first novel *HYSTERIA* earned lot of praise, and was long-listed for the German Book Prize 2018:
 “With great ease and linguistic elegance, Eckhart Nickel tells of the downfall and gradual disappearance of everything. Rarely has an apocalyptic vision been as pleasurable as it is stimulating“. *Neue Zürcher Zeitung*

ANNINA HAAB

Among the Big Birds

"As long as there are stories, there is life."

ABOUT THE BOOK

Ever since Ali came to the care home, she has talked incessantly about death. But for her granddaughter, the prospect remains unthinkable. She begins to write down everything relating to Ali, and realises how little she actually knows about her: about her childhood and youth, her years in London, her job at the factory. Using a combination of fragments, anecdotes and a good deal of imagination, the narrator plots her own version of Ali's life story, attempting to capture her grandmother's unique blend of mischief and pragmatism. Through this process, the two of them open up a shared space where each can prepare in their own way for the coming farewell.

- Deals with the process of leave-taking from people we love
- A touching, humorous and linguistically finely crafted novel

Rebellion

Generational conflict, climate change protests and the choices affecting our future

ABOUT THE BOOK

Fifteen-year-old Lara has gone missing. Fobbed off by the police, her mother Rebekka decides to take matters into her own hands. In the search for her daughter, she encounters a group of young activists who believe the peaceful climate change protests in their country need to be more radical. She becomes convinced that Lara has joined their campaign for social justice, and that that they will do whatever it takes to achieve it. With clarity and empathy, Nicola Karlsson unfolds the gripping story of a mother's struggle to gain her daughter's trust, and a generation determined to stop at nothing to save their future.

My Father's Daughter

Women Who Change the World 2

A novel about Sigmund Freud's most gifted child

ABOUT THE BOOK

Vienna, 1923. Anna is overjoyed at the prospect of establishing her own practice in the parental home. But for all his support as a role model, Sigmund Freud also cramps his youngest daughter's style. She is often plagued by a sense of inferiority, trapped in the role of his little girl. In truth, the dutiful assistant, confidante and carer to her world-famous father is never happier than when using her psychoanalysis techniques to help children in need.

It is only after the family's exile in the face of the dramatic events of the 20th century, a passionate love affair and many years of inner struggle that this clever, sensitive young woman is able to emerge from her beloved father's shadow, free at last to follow her dreams.

- She fought for her happiness - and for that of the children.
- How Anna Freud followed in her father's footsteps to leave her own mark on the world

Evil Houses

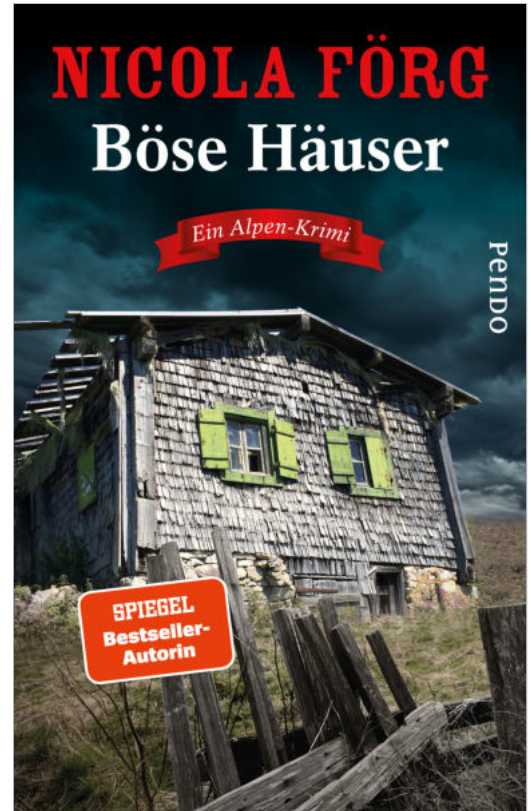

Alpine Thrillers 12

Live better, die faster.

ABOUT THE BOOK

Home is where the heart is ... yet house-hunting can be deadly! When Commissar Irmi Mangold goes to view a farmhouse she is looking to buy, another potential buyer is shot dead right beside her. The deceased is the owner of a luxury car company, the estate agent a businessman with a peculiar morality. The vendor, for his part, is an organic farmer of few words. Irmi and senior investigator Gerhard Weinzirl become caught up in the maelstrom of envy and hate that exists wherever money and property are concerned. All the clues point to the past, and to the Berlin of the post-reunification period, where houses have grim tales to tell.

NILS MELZER

The Case "Julian Assange"

A Story of Persecution

Julian Assange - a rapist, a hacker, a spy and a narcissist? Or a victim of torture and political persecution?

For the first time, the UN Special Rapporteur on Torture, Nils Melzer, tells the full story of his investigation into the case of Wikileaks founder Julian Assange, and presents his explosive findings in unprecedented detail.

ABOUT THE BOOK

In July 2010, Wikileaks publishes the "Afghan War Diary", one of the biggest leaks in the history of the US military, including evidence of war crimes and torture. The mastermind behind the publication: Julian Assange, the founder and spokesman of Wikileaks. A captivating story unfolds: within weeks, Sweden issues an arrest warrant against Assange. The accusation? Rape and sexual assault. Assange fears onward deportation from Sweden to the U.S. and receives diplomatic asylum in the Ecuadorian embassy in London. In 2019, Assange is handed over to the British police and, on the same day, the U.S. demand Assange's extradition and threaten him with up to 175 years in prison for alleged espionage and computer fraud. Nils Melzer, UN Special Rapporteur on Torture, starts investigating the case in March 2019. His findings are explosive: grave and systematic due process violations, judicial bias, collusion and manipulated evidence, constant surveillance, defamation and threats, as well as consolidated medical evidence for prolonged psychological torture. Melzer's compelling book offers detailed insights into his investigation and conclusions. After two decades of working within the context of war and violence, he knows how quickly unchecked power can transform peaceful countries into infernos: the only ingredients needed are secrecy, impunity and, crucially, public indifference. **Overall, the Assange case sets a dangerous precedent: once telling the truth becomes a crime, censorship and tyranny will inevitably follow.**

STEFAN AUST

Journey Through Time

The Life and Times of an Exceptional Journalist

An exceptional journalist tells his story

ABOUT THE BOOK

One of Germany's best-known journalists, Stefan Aust began his career with the left-wing magazine *konkret*, worked for the German current affairs programme *Panorama*, where his damning report on the war record of CDU politician Hans Filbinger triggered the notorious Filbinger affair, and spent ten years as editor-in-chief of *Der Spiegel*. Throughout his various roles, he has been instrumental in shaping public debate in Germany. His famous book **The Baader-Meinhof Complex** remains the definitive work on Germany's "autumn of terror" to this day. In this autobiography, whose publication coincides with Aust's 75th birthday, he writes for the first time about the background and political context of his research. The result is a historical panorama of the Federal Republic which is at once an eyewitness account, a background report, and the story of a fascinating life.

KRISTINA VOGEL

Still Me

A Life in Cycling

“I may have fallen, but I can get back up.”

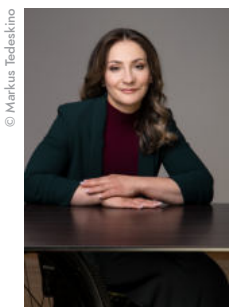

ABOUT THE BOOK

Former track cyclist Kristina Vogel is a role model to many thanks to her infectious energy. She discovered her passion for cycling as a child, but at the age of eighteen suffered serious injuries in a road accident. Yet her boundless determination helped her make an impressive comeback and win her first world championship title. At the 2016 Summer Olympics in Rio de Janeiro in 2016 she won Olympic gold in the women's sprint, in 2018 she became the most successful female track cyclist in the world – and just a few weeks later she found herself in intensive care, paralysed from the waist down. With captivating honesty, she describes the key moments in her career, the discipline and optimism with which she struggled to get her life back on track, and the goals she is pursuing today.

- Kristina Vogel is the most successful female cyclist in the world and a role model to millions
- “Kristina Vogel is a force of nature.” - *The Telegraph*

STEPHAN ORTH

Couchsurfing in Saudi Arabia

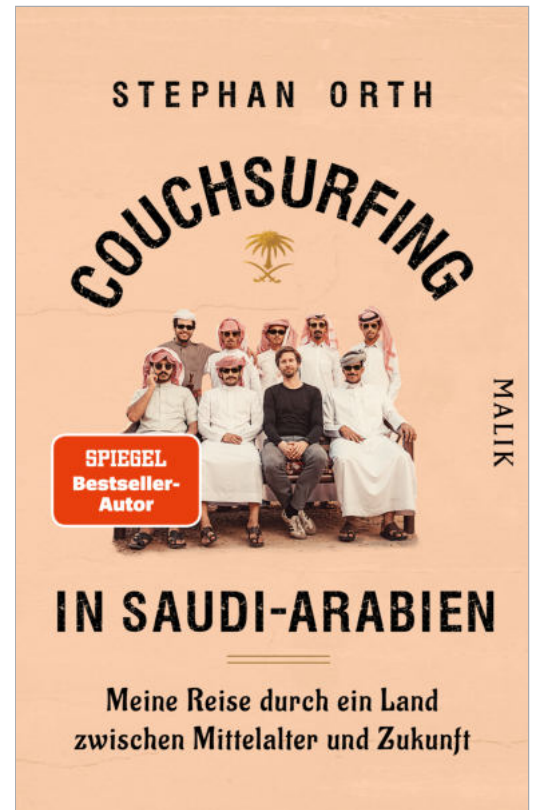

My Journey through a Country Poised between the Middle Ages and the Future

A Glimpse Behind the Veil

ABOUT THE BOOK

Stephan Orth has a penchant for countries with a bad reputation – and when Saudi Arabia finally takes the step of issuing tourist visas, he is one of the first individual travellers to visit its shores. As a seasoned couchsurfer, he is able to gain insights into a closed society hitherto inaccessible to any Western visitor. He ventures into uncharted territory and witnesses the country's rapid transformation at first hand: today, women are allowed to drive cars, having fun is no longer frowned upon, and billions are lavished on mega-events. Orth dances at a huge desert rave, makes a celebrated appearance at the Dakar Rally on a bicycle, and attends high-tech shows in the grounds of ruined fortress in Riyadh. But that's only one side of the coin – behind all the glitz, draconian punishments remain in force, and the sound of bombs on the Yemeni border is ever present.

- The first insider account of a country in transition
- Over 250,000 copies of the Couchsurfing series sold:

The Reality of Risk

A Rational Approach to the Unknowable

There is no life without risk

ABOUT THE BOOK

Risk is not a construct, but a reality, as the corona crisis shows only too well. This raises a number of questions: What is truly important to us as a society? What risks are we prepared to take? And at what cost? This book seeks to establish a reasonable approach to risk from a philosophical and cultural perspective, in order to provide some guidance amid the present crisis and those to come. Well-researched yet accessible, it is aimed at a wide, non-specialist audience.

- What risks are we prepared to take?
- How do we deal with what we don't know?
- A topic for our time

FABIAN SCHEIDLER

The Stuff We Are Made Of

Rethinking Nature and Society

Why nature is completely different from what we think

ABOUT THE BOOK

The ecological crisis and climate chaos threaten the future of humanity. One of the reasons for this is a technocratic worldview that reduces nature to a disposable resource. In a fascinating journey through the history of science, Fabian Scheidler shows that this conception of nature is a fatal error. With a surprising new look at life, science and ourselves, this book opens up perspectives for profound social change.

- For readers of Noam Chomsky and Naomi Klein
- An intelligent plea for a new understanding of nature
- "This book is a masterstroke." - *Ernst Ulrich von Weizsäcker*

MOHAMED AMJAHID

The Whitewash

A Guide to Anti-Racism

Enough talk, let's act now!

ABOUT THE BOOK

Structural racism, white privilege and the othering of vulnerable minorities – the debate of the past few months has shown just how starkly these topics polarise society. Even if awareness of inequality has grown in our culture, racist thought remains deeply rooted in us all, yet invisible to white majority society. It is these blind spots that Mohamed Amjahid sets out to address in his book – not only by showing how the system of white privilege operates, but by demonstrating in concrete terms how we can overcome our racism in order to move together towards a peaceful, just and inclusive society.

- A survey of anti-racist thought and invisible injustices
- Highly topical in a time of social movements against racism, right-wing politics and white supremacist terror

Wild Child

A Guide to Attachment Parenting

Understanding development, parenting toddlers calmly, resolving conflicts affectionately

ABOUT THE BOOK

Many parents who pursue attachment-oriented lives with their babies know that it benefits attachment if they respond promptly to their infant's needs. When babies become toddlers, they increasingly confront their parents with a need for autonomy, which can push parents to the limit. How can you resolve conflicts affectionately while parenting calmly? Using specific everyday situations, this book shows parents of toddlers how to deal with tantrums and scold less while still setting boundaries and strengthening both autonomy and attachment.

- Age range 1 to 5
- How does an attachment-oriented family life work with toddlers?
- Practical tips for typical conflict situations in everyday life

KERSTIN DECKER

The Story of Humanity

A Rat's Eye View

A refreshingly different perspective

ABOUT THE BOOK

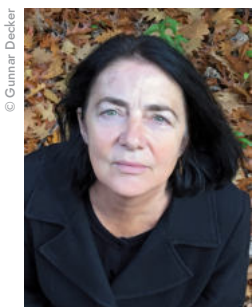

No-one holds a mirror to us humans. Perhaps the rat, the "lowest" of the animals, can fill this gap. Traditionally regarded as a beast of hell, it brings the necessary alien perspective to our millennia-old shared history. As for which of us is the most successful mammal on earth, the jury is still out. Both man and rat are cosmopolites, opportunists and omnivores.

An eye-opening journey through the history of homo sapiens, told from a somewhat unusual perspective that is both inspiring and entertaining. Who knew what a rat could teach us!

RALF GEORG REUTH

Hitler

Key Aspects of his Dictatorship

Hitler's misunderstood power

ABOUT THE BOOK

To this day, we struggle to comprehend the tyranny of Hitler. In this new book, Ralf Georg Reuth investigates ten aspects of his catastrophic legacy. Questions raised include: was anti-Semitism stronger in Germany than elsewhere? Was the Treaty of Versailles really responsible for Hitler's rise, and why did the Germans follow such a fanatical racist? How did his war differ from all previous wars? The disturbing answers lead to an overall impression that Hitler was not a phenomenon born of the dark recesses of German history, but rather a product of chance, deception and seduction.

ARMIN STROHMEYR

Great Women Philosophers

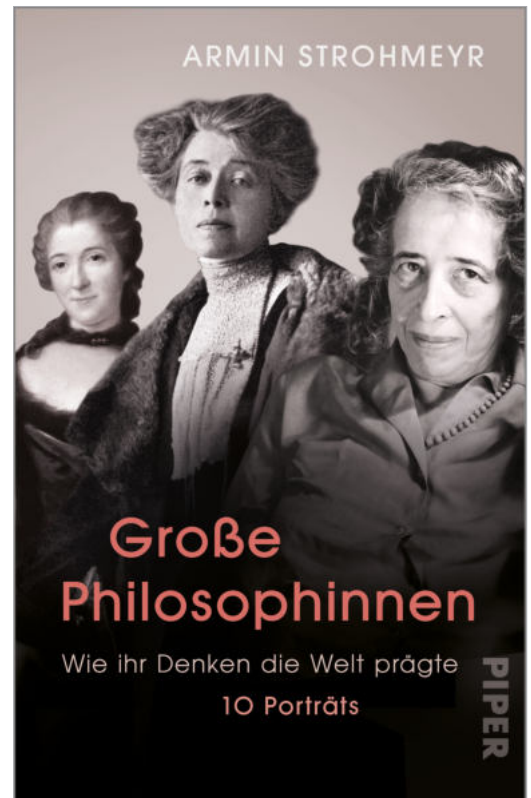

How their Thinking Shaped the World – in 10 Portraits

How women thinkers changed the world

ABOUT THE BOOK

Philosophy seems to have been a male stronghold for millennia. Yet many women have made decisive contributions to our knowledge of the world. Their ideas have challenged the personal and socio-cultural conditions of their age, not infrequently turning them on their head. In ten biographical portraits, Armin Strohmeyr traces the history of female philosophers from the 12th to the 20th century, providing an informative introduction to their respective schools of thought and new perspectives on their contribution to our intellectual heritage.

DORIS REISINGER, CHRISTOPH RÖHL

Only the Truth Can Save Us

The Ratzinger System and Child Abuse in the Roman Catholic Church

The disastrous consequences of Joseph Ratzinger's conduct in office as Cardinal and as Pope Benedikt XVI

ABOUT THE BOOK

Cardinal Joseph Ratzinger/Pope Benedict XVI had a decisive influence on the Roman Catholic Church for over a quarter of a century. But what role did he play in the Vatican's failure in the child abuse crisis? What did he know? What could he have done? What did he do? What did he not do, and above all, why? Doris Reisinger and Christoph Röhl draw a portrait of this man that is quite different from the usual clichés: the scholarly recluse, the quiet hero, the "Mozart of theology" to his apologists; the "Panzer cardinal" or "God's Rottweiler" to his reformist critics. In the light of their discoveries, the failure of his pontificate seems doomed from the start. And so perhaps does the failure of his reactionary ideal of the Church itself.

GABRIELE FINCK

To Boldly Go

The Anxiety Sufferer's Guide to Travel

For brave scaredy-cats and anxious globetrotters

ABOUT THE BOOK

Gabriele Finck suffers from an anxiety disorder. At the age of twenty, her condition forced her to restrict her movements, keeping her stuck at home. Every outing became a challenge. But fear of the outside world is not confined to the clinically anxious – for many, travel remains a pipedream. In this book, the author explains how she mastered the challenge of going out again, and how to “pack your fear in your suitcase” and take it with you. Her encouraging example demonstrates the value of holding on to our dreams of travel and adventure. After all, she argues, it is the fluctuating emotions of joy and fear that make us feel truly alive.
